Awards offering *Curriculum Development in Christian Schools*

This unit is offered as a part of the following awards:

- Master of Education
- Graduate Certificate in Education

Unit Content

Outcomes

1. Critically appraise the approaches taken by curriculum developers, and the role of teachers in creating, planning, reviewing and adapting units of curriculum in Christian schools for use with their classes;
2. Critique various theories and practices associated with curriculum design and development, assessing their alignment with a biblical perspective;
3. Describe and discuss the advantages and challenges of collegial curriculum development practice with reference to an action research investigation;
4. Recommend processes and strategies for ongoing collaborative development of curriculum in Christian schools, which reflects a school's student

characteristics, faith commitments, and vision in a dynamically structure and Biblically informed approach.

Subject Content

1. Understanding the nature of curriculum: Overview of definitions and development of curriculum as a concept
2. Deciding what will be taught, and how in Christian schools: The place of curricula in the Christian teacher's classroom practice
3. Evaluating curriculum: A biblical basis for understanding criteria for evaluating and reviewing curricula
4. Curriculum models and frameworks: An overview of curriculum theory, models and frameworks
5. Outcomes, objectives and learning intentions: Approaches to purposeful curriculum design
6. School-based curriculum development: Planning and preparing a school's curricula using original or context-specific curricula and commercial curricula
7. Collaborative practices in curriculum development: Approaches to collaborative team work by teachers for curriculum development
8. Christian teachers as curriculum developers: Summary, and significance of curriculum development to the classroom practice of Christian teachers
